

# OUTLINE

I. Intro P - Summarize what paper is going to be about.

↳ Prevalence in world, U.S., particular population, ~~is~~

↳ Causes < environmental  
genetic

↳ History of disorder

↳ Symptoms / ~~contag~~ Transmission

↳ Treatment / Cures

↳ Research

↳ Diagnose?

↳ Living w/ disorder

Disorder

## II. Body Paragraph # 1: Prevalence

A. Global Statistics: \_\_\_\_\_  
\_\_\_\_\_

B. U.S.: \_\_\_\_\_  
\_\_\_\_\_

(# 1, 6 sources)

(sources)  
# 2, 4

C.

## III. Body P # 2: Genetic Causes

(2, 3, 4)

## IV. Body P # 3: Env. Causes

# Animal

↳ Prevalence : globally, region

↳  $\frac{1}{3}$  location, #s over time

History | Cultural ties

↳ Anatomy / Classification / Taxonomy

external

skeletal

unique feature

special adaptations

Digestive, nervous,

circulatory, endocrine,

excretory

Kingdom

Phylum

Class

Order

Family

Genus

Species

↳ lifespan/lifecycle

↳ Size

↳ Role in ecosystem

↳ Prey

↳ Predator

↳ Niche = role

↳ Env. Threats

What, how

↳ What can you do to conserve/preserve organism?

↳ Economical use for humans

## Ecological Issue:

↳ What is it? Where does it occur?

↳ Causes

↳  
↳  
↳

↳ Effects

↳  
↳  
↳

↳ Role of Humans

↳ causes

↳ Remediation

↳ Prevention
