

RESEARCH PAPER WORK CITED PAGE

(Remember: this is a work in progress, and you may add/change the sources later)

NAME: _____ Date: _____
TOPIC: _____

Reminder:

- You need at least 5 references.
- ONLY ONE source of information may be an encyclopedia
- Wikipedia is not a source of information that will be accepted
- AT LEAST ONE source of information must be no more than two years old.
- Eventually, you must cite them within the text of your background research, so the earlier you have the work cited page done, the better off you will be when writing your paper.
- When listing your sources of information, list them alphabetically.

Each reference must be cited correctly. USE the MLA bibliography format. The following website may be helpful:
